Science: Seasons and Animals including Humans

Spring	Summer	Autumn	Winter	seasons
				

Seasons- factual knowledge.

- To know the names of the four seasons
- To explain what we would expect to see during those seasons (E.g. Autumn = brown leaves, animals storing food, Winter = Frost/snow, trees with no leaves).

Mammals	Reptiles	Birds	Fish
			

Animals including humans- factual knowledge.

- To know what the five senses are - sight, hearing, smell, taste, touch (any part of body can feel, not just hands).
- To know which body part is associated with each sense.
- Name common animals (fish, frog, crocodile, robin, lion, elephant).
