

# Y2 Summer Knowledge Organiser— Science

## Plants

I know that plants need nutrients to survive

I know that plants need water to survive

I know that plants need light to Survive.

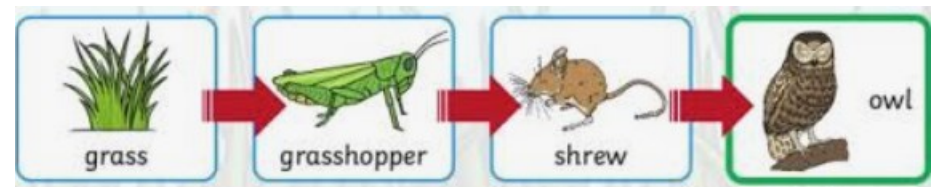

I know that plants need the correct temperature to survive

I know that plants need space and time to survive

## Characteristics of living things

A food chain shows how animals depend on other plants and animals for their food and survival..

A habitat is a home environment for animals and plants.

## Characteristics of living things.

Deciduous-  
Sheds leaves  
annually

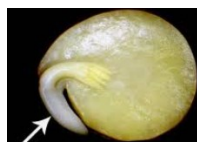

Evergreen-  
remains  
green

Germination-  
plants grows  
from seed to  
seedling.

Embryo-  
has a root  
and stem.

Seed Coat –  
protects the  
embryo.

# Y2 Summer Knowledge Organiser- Geography

An atlas/globe shows us the whole world..

We live in Europe. The UK has a temperate climate.

The world is made up of 5 Oceans. These are Arctic Ocean, Atlantic ocean, Pacific Ocean, Indian Ocean and the Southern Ocean.

Equator—The earth's equator is the imaginary line that runs around the centre of the globe at 0 degrees latitude at equal distance between the North and South poles.

A continent is a large solid area of land. The world is made up of 7 continents. These are:

Africa

Antarctica

Asia

Australia

Europe

North America

South America
